Product name:**CPT image tube**

Regulation:

Product Notes:

Product Category:**Colored image tube**

Product Description

Product Form Type	Product Model	Product performance features
37 cmCCPT Colored image tube 	37SX110Y22	1) Spherical, low permeable screen, mixed black background, coloring phosphor, strip fluorescent film. 2) Precision one-size-fits-all dual potential focusing (BPF) electronic gun. 3) isometric, porous, super-arched shade. 4) Tension belt with mounting earrings with a hot-sleeved explosion-proof belt. Adapt to all regions of the world and support all user standards.
40 cmPFCPT Full-plane color image tube 	A36CPABX	1) Full-plane coloring screen, full black background, coloring phosphor, strip fluorescent film. 2) Precision one-shaped integration, single-dual potential (U-B) electronic gun. 3) Variant pitch, slotting, bar hole temperature compensation type shade. 4) Tension belt with mounting earrings with a hot-sleeved explosion-proof belt. 5) Internal magnetic shielding, adapt to all regions of the world, support all user standards.
54cm of FSCPT Flat right angle color image tube	54SX538Y22	1) flat right angle low permeable screen, mixed black bottom, coloring phosphor, strip fluorescent film. 2) Precision one-size-fits-all, high-focus voltage four-potential focusing (LAT-QPF) electron gun. 3) Variant pitch, slotting, bar-hole prestressing and charge retention-type shade.

		4) Tension belt with mounting earrings with a hot-sleeved explosion-proof belt. 5) Internal magnetic shielding, adapt to all regions of the world, support all user standards.
54 cmPFCPT Full-plane color image tube 	A51CPAA00X A51CPAA01X	1) Full-plane low-permeability screen, black bottom bar screen, coloring phosphor. 2) One-shaped integrated, single-dual potential (U-B) electronic gun. 3) Fine pitch, four sides hanging, AK shade cover. 4) Tension belt with mounting earrings with a hot-sleeved explosion-proof belt. 5) Internal magnetic shielding, adapt to all regions of the world, support all user standards.
54cmPF SS CPT Full-plane thin color image tube 	A51CPAB00X	1) Full-plane low-permeability screen, black bottom bar screen, coloring phosphor. 2) One-shaped integrated, single-dual potential (X-EA) electronic gun. 3) Fine pitch, four sides hanging, AK shade cover. 4) Tension belt with mounting earrings with a hot-sleeved explosion-proof belt. 5) Internal magnetic shielding, adapt to all regions of the world, support all user standards.
54 cmPF US CPT Full-plane ultra-thin color image tube 	A51CPAC00X	1) Full-plane coloring screen, black bottom bar screen, coloring phosphor. 2) One-shaped integration, UB-XEA electronic gun. 3) Fine pitch, four sides hanging, AK shade cover. 4) with a tension belt with earrings mounted hot-sleeved explosion-proof belt. 5) internal magnetic shielding, adapt to all regions of the world, support all user standards.
64 cmPF CPT Full-plane color image tube	A60CPAB00X A60CPAB01X	1) Full-plane coloring screen, black bottom bar screen, coloring phosphor. 2) X-EA improved electronic gun. 3) trough hole, temperature compensation type shade. 4) with a tension belt with earrings mounted hot-sleeved explosion-proof belt.

		5) internal magnetic shielding, adapt to all regions of the world, support all user standards.
74 cmPF CPT Full-plane color image tube 	A68CPAB00X	1) Full-plane coloring screen, black bottom bar screen, coloring phosphor. 2) X-EA improved electronic gun. 3) AK material forming shade cover. 4) with a tension belt with earrings mounted hot-sleeved explosion-proof belt. 5) internal magnetic shielding, adapt to all regions of the world, support all user standards.
